## Twelve Month Highlights

The following programs, services, and assistance activities were provided throughout the region.

- A total of 76 applications were prepared.

- NECOG and NECOG DC received an additional \$258,785 in direct funding.

- NECOG directly provided census information to 10 Counties and 19 Cities with redistricting assistance. All entities received census block maps, census block data on population and deviation calculations. Additional assistance was offered to Counties and Cities to produce maps and develop different district and ward population scenarios.
- NECOG under a contract from the SD Bureau of Finance and Management finalized assistance to our 12 Counties and 75 Cities in accessing an initial allocated amount of \$21,313,365 from the CARES Act. This activity required providing direct guidance to meet the program rules and communicating ongoing updates throughout the process.

- Numerous local governments and private businesses were assisted with registering/updating of the System for Award Management. SAM requires active status to be eligible for federal program application and award.
- Provided ongoing information on numerous grant and loan programs available to Cities and Counties in the region.
- Participated in County association meetings and Municipal League district meetings in the region.

NECOG has also directly received \$9,648,278 in grants and contracts from State, Federal and Local Foundations. This money has been used to provide direct services back to the region.
